

A BILL FOR AN ORDINANCE

RELATING TO BUILDING PERMIT APPLICATIONS.

BE IT ORDAINED by the People of the City and County of Honolulu:

SECTION 1. Purpose, findings, and intent.

The purpose of this ordinance is to require applicants for building permits for residential structures to attest that the construction complies with all restrictive covenants for the land on which the proposed work is to be done.

There have been instances in the City where the construction of residential dwellings has not complied with underlying restrictive covenants. While violations of restrictive covenants are generally a private matter, the construction of such noncompliant dwellings can result in negative impacts, such as excessive bulk or an increased number of dwelling units, which adversely affect the surrounding neighborhood and cause concern among area residents. This ordinance therefore requires applicants for a building permit for any residential structure to attest that the proposed construction will comply with all applicable restrictive covenants. False attestations will be subject to existing administrative and criminal remedies for violating the requirements under which a building permit was issued, including an action to suspend or revoke the building permit.

SECTION 2. Section 18-4.1, Revised Ordinances of Honolulu 1990 ("Application"), is amended to read as follows:

"Sec. 18-4.1 Application.

To obtain a permit, the applicant shall first file an application therefor in writing on a form furnished for that purpose by the building official. Every [such] application [shall] must:

- (a) Identify and describe the work to be covered by the permit for which application is made, including a list of each and every phase of electrical and plumbing work;
- (b) Describe the land on which the proposed work is to be done, by tax map key number, and house and street address, or similar description that will readily identify and definitely locate the proposed building or work;
- (c) Indicate the use or occupancy for which the proposed work is intended;

A BILL FOR AN ORDINANCE

- (d) Be accompanied by plans, specifications, calculations, and construction inspection requirements as required in Section 18-4.2;
- (e) State the valuation of the proposed work;
- (f) Provide the name and license of all specialty contractors involved in the project, in compliance with the provisions of HRS Chapter 444;
- (g) State the following information for each contractor or subcontractor engaged to do electrical or plumbing work upon the building, structure, or project:
 - (1) Name;
 - (2) Address;
 - (3) Contractor's license number; and
 - (4) Particular phase or phases of work to be performed;
- (h) Be signed by the responsible managing employee or authorized employee of each contractor designated in subsection (g);
- (i) For applications contemplating the demolition of any building constructed as a residential dwelling and occupied in any habitable unit thereof, be accompanied by a duly notarized affidavit stating that the applicant has a proprietary interest in the subject property or has the written authorization of a person or entity with a proprietary interest in the subject property to submit the application. If the interest of the applicant or of the person or entity authorizing the applicant to submit the application is not a fee simple interest in the property, the affidavit ~~[shall]~~ must state the nature and the remaining term of the interest.

For purposes of this subsection, a person or entity has a "proprietary interest" if the person or entity has the right of control and dominion of the property being demolished, and a person or entity has "right of control and dominion" if the person or entity holds, possesses, and retains control of 51 percent or more of the property interest. If a person or entity holds, possesses, and retains less than 51 percent of the property interest, other persons or entities with an interest in the property ~~[-(up to the 51 percent)]~~ must consent to the demolition of the building, such that the combined interests of the person or entity claiming the right of control and dominion and of the consenting persons or entities equal or exceed 51 percent; [and]

ORDINANCE _____
BILL 42(2020)

A BILL FOR AN ORDINANCE

- (i) For applications for the construction of a residential dwelling, be accompanied by an attestation by the applicant and the property owner that the construction complies with all restrictive covenants applicable to the land on which the proposed work is to be done; and
- ~~(j)~~(k) Give such other information as reasonably may be required by the building official. If the application proposes excavation and backfill work that does not require a grading permit under Section 14-13.5(b), the building official, if deemed necessary to protect or promote public safety, may require the submittal of an engineering slope hazard report. ~~[Such a]~~ An engineering slope hazard report means the same as defined under Section 14-13.3. The report shall have the same information as that required for an engineering slope hazard report under Section 14-14.2(d)(2)."

SECTION 3. Ordinance material to be repealed is bracketed and stricken. New ordinance material is underscored. When revising, compiling, or printing this ordinance for inclusion in the Revised Ordinances of Honolulu, the Revisor of Ordinances need not include the brackets, the material that has been bracketed and stricken, or the underscoring.
